

CAD Technician

Location: Whiteley, PO15 7FT

Salary: Competitive – Depending on Experience

About the company:

Aqua Platinum Projects is a provider of turnkey solutions specialising in swimming pool design and construction supplying domestic customers, trade and commercial developers.

Due to continued growth Aqua Platinum are looking to engage another CAD Designer who is keen to grow within the company and enjoy the challenge of designing pools and wet leisure areas on high-end prestigious projects for both residential and commercial clients.

Duties of the CAD Technician:

- Attend design team meetings supporting the Design Manager in a confident and professional manner
- Produce 2D working CAD drawings and schematics to support the contracts team on site and clients/main contractors
- Liaise with the sales team and Project Managers at the design stage on all new projects
- The position will be mainly office based in Fareham, Hampshire but as you grow within the team you will be asked to attend client meetings with most of our contracts being in London and surrounding counties.

Requirements of the CAD Technician:

- Strong CAD knowledge with previous experience however Graduates with a qualification in CAD will also be considered
- Experience of Revit 3d would be an advantage
- Ideally you will have knowledge/experience within the pool industry or design / construction / architectural led industry although not vital as this role will develop with experience
- A full and valid driving license with own transport will be required as public transport is not an option in Whiteley
- The role will require a self-motivated, confident individual who is competent, well organised and able to work under pressure to meet strict deadlines.

If you meet the requirements and feel that this CAD Technician role is right for you then please apply today!
