

AQUA PLATINUM

SERVICING MAINTENANCE REFURBISHMENT

Senior Service Engineer

About the company

Aqua Platinum is one of the largest swimming pool companies in the UK offering a bespoke design and build service within the high-end luxury swimming pool, spa and wellness market.

Due to continued growth, we have an opening for a senior service engineer to join our team of in-house service engineers who are trained in all the key responsibilities required in maintaining the quality and operational performance of all features expected from our highly competitive weekly, fortnightly and monthly packages available.

About the job

Aqua Platinum Service are looking for a senior service engineer who is keen to grow with the company and enjoy the challenge of working on high-end pools and wet leisure areas for both residential and commercial clients, mainly in London and surrounding areas.

Tasks will include service and maintenance, fault finding, refurbishment and installation, reporting directly to the Service Manager.

Your duties will include:

- Carry out pool/spa and plant room service and maintenance.
- Carry out pool and plant room installation and repair.
- Be able to work from a set of drawings and ensure all materials are organised for installation within the project time frame.
- Must have a minimum 5 year's previous experience in pool and plant room maintenance and installation.
- Must have thorough understanding of all swimming pool equipment including pumps, filters, pipe work, automatic dosing and uv/ozone water treatment units.
- Experience of cover installations/service and knowledge of environmental units would also be an advantage but not essential.
- Good understanding of electrical systems.
- ISPE would be an advantage but not essential.
- Full Driving License required.
- CSCS Card would be ideal but not essential.
